Communicate what is important

Share key messages with your audience when they land to your tenant's home login page, for example:
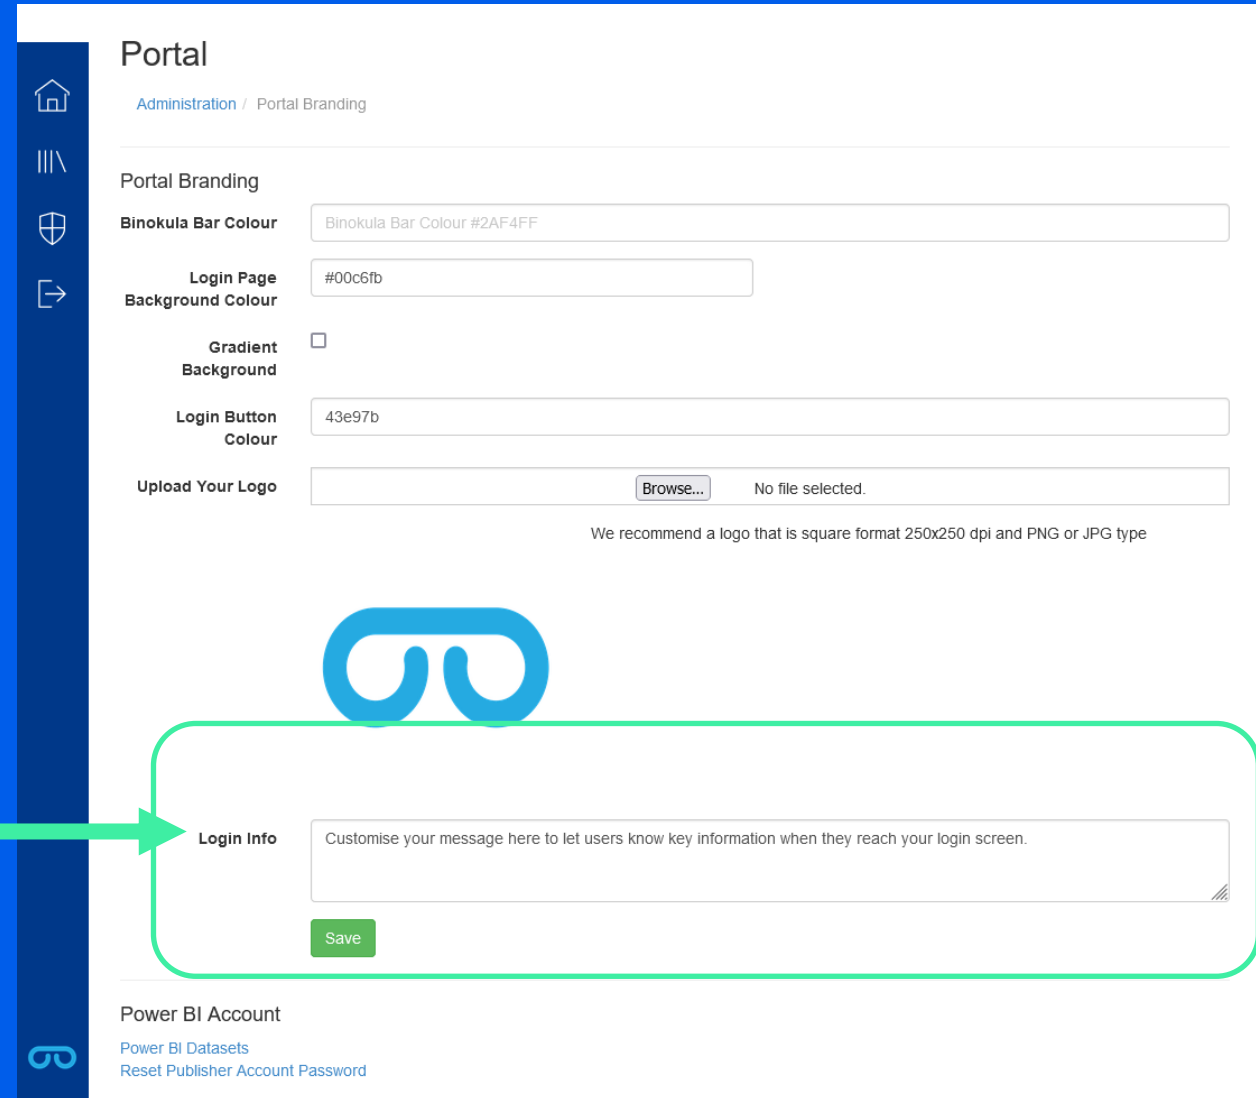

- Describe this as your key portal for Power BI sales and stock reports

- Talk about who has access to this when part of a large organisation

- Highlight how to request access

- Indicate key updates in the portal: "a new KPI dashboard for seasonal output has been loaded from January for all managers".

NEW FEATURE: Login Screen Message
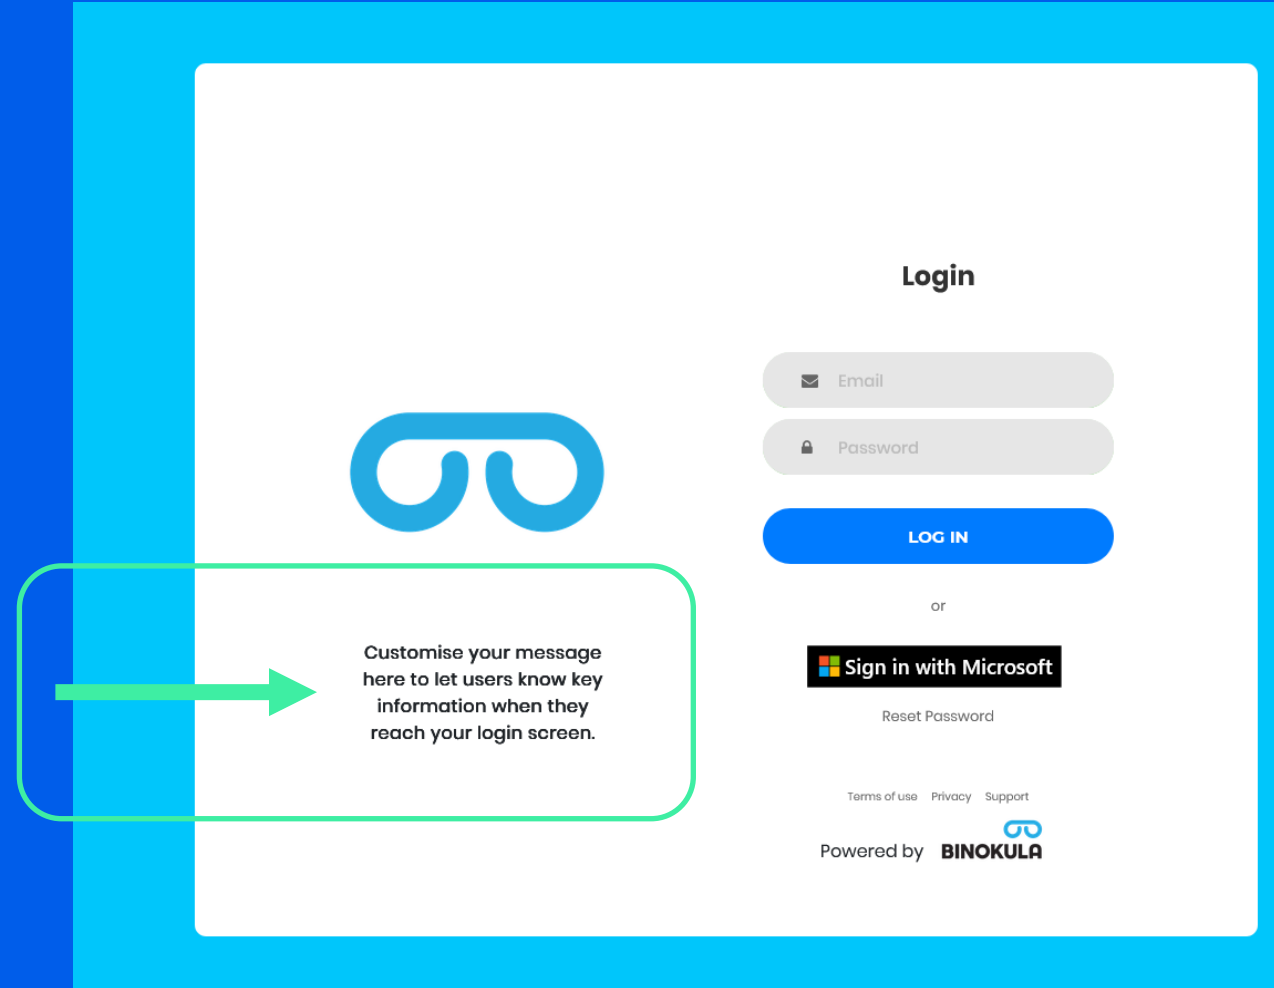

HOW TO UPDATE YOUR MESSAGE

1. Accessible in the *Administration* menu under *Portal Branding*

2. Enter text in the *Login Message* box beneath the *Update Your Logo* section.

3. Click SAVE button

If no message is entered, the space will remain blank on your tenant home login page.
